Housing and Neighborhood Programs Department

November 2021

- DEPARTMENT OF HOUSING AND NEIGHBORHOOD PROGRAMS ANIMAL SERVICES DIVISION
- Tracy Roark Animal Services Manager
- Kevin Howard Director

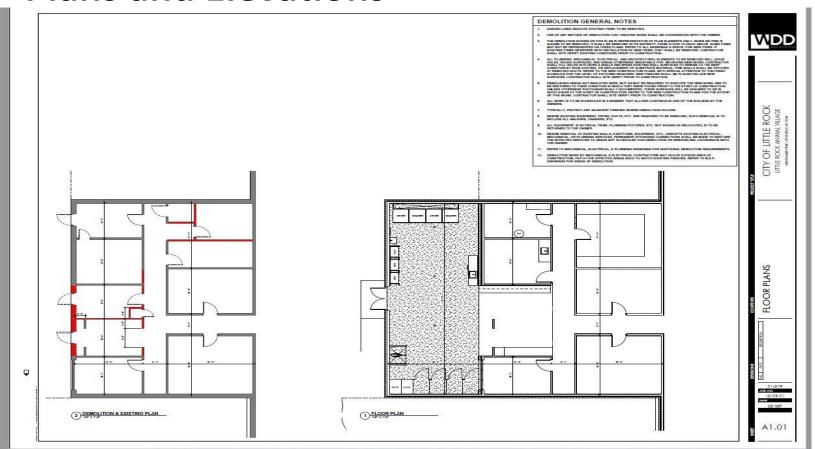

SCOPE OF WORK:

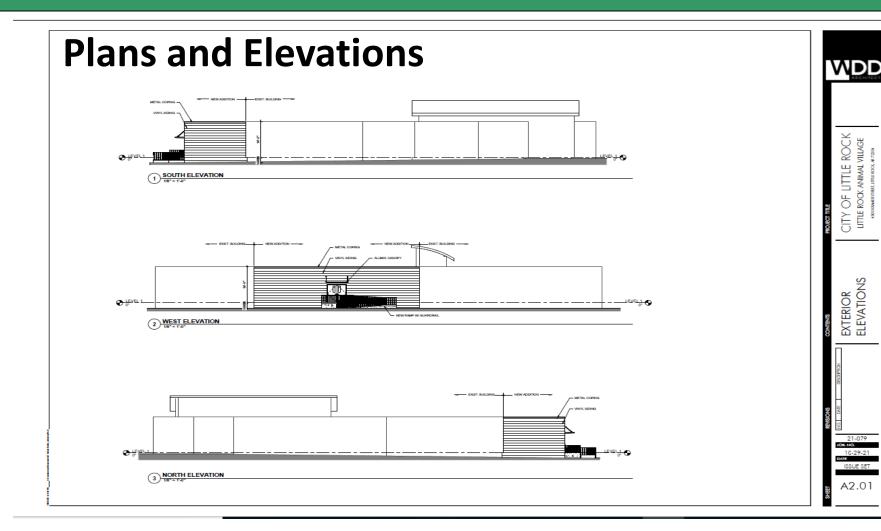

- The new space added to the existing shelter will include an intake area along with work stations for staff to check in new incoming animals.
- Dog wash area added and moving our existing laundry and food prep area into the space.
- Existing laundry room turned into a euthanasia room.
- Re-working the existing cat stray, cat intake and feral cat area into one area to house all cats together
- Sound proof the room from the dog area behind a common wall between the cats.
- Communal Cat Room was built in 2018

Plans and Elevations

Estimated Cost: \$400,000.

How will this help Animal Services:

 This will allow staff more room for animal intake, improvement of laundry facility, new food prep area, new euthanasia room, improvement of cat stray area, and sound proofing common wall between cats and dogs. This will also allow access by ramp into the rear of the facility. Cats have already benefitted by having a quite place for them to socialize.
